Water district's loan approved

By SUSANNE INDELICATO
Staff writer

ARLINGTON HEIGHTS — A champagne toast marking the near-end of a "nine-year ordeal" was made following Thursday night's meeting of the Arlington Heights Water District Board.

"I've been told by the Farmer's Home Administration to start spending money because the loan has been approved," Water District President Jerry Lilley announced during the meeting.

THE \$345,000 FmHA loan will help pay for construction of a new water system in the subdivision, located southeast of Granite City.

The interest rate on the 40-year loan will be 9 5/8 percent, Lilley said.

"It is there. It is waiting for us to comply with the letter of conditions," he said about the loan money.

A CONDITION of the loan, he noted, is collection of all tap-on fees from residents who signed user's contracts. The deadline for paying the \$800 fee was Aug. 16. So far, Lilley said, 16 homeowners had not paid the fee.

Those who signed contracts paid an initial \$50 deposit, leaving a fee

balance of \$750 payable. In addition to 136 homes, two apartment complexes and a golf course are to be hooked up to the water system.

GRANITE CITY Properties, owner of one of the apartment complexes, has been paying its tap-on fee in installments. The complex is to pay \$1,500 per building for a total of \$27,000. So far, about half of the fee has been paid, Lilley said.

The other apartment complex, Fairway Estates, paid an initial \$600 but still owes \$17,400. The water district commissioners voted Thursday to allow that complex to pay in installments also.

Homeowners who have not paid their fee balances by Sept. 15 can expect a personal visit from a water district commissioner, the board decided. If payment still is not received, the names of those who haven't paid but have signed contracts will be turned over to the district's lawyer.

ALL TAP-ON FEES must be paid to the water district before it can close on its FmHA loan. The district hopes to collect all fees, including those of the apartment complexes, by Dec. 1.

Other conditions which must be

met by the loan closing, set for April 1, 1986, are:

- A plan for the operation and maintenance of the system. A tentative schedule calls for the plans to be completed by the first week in November.

- A budget, which is scheduled to be approved by February 1986.

- Rules, rates and regulations of the system, also to be completed by February 1986.

- A water purchase agreement with Illinois-American Water Co. to provide water for the system.

- Plans, specifications and contract documents.

Advertising for construction bids is scheduled for January 1986.

IN ADDITION, the Environmental Protection Agency must approve the plans and specifications for the water system.

The revenue bonds for the loan will be paid off through the water bills, according to Phil Corlew of M.B. Corlew and Associates Inc., the district's consulting engineers.

The water bills not only will pay off the debt service on the bonds, but also will provide funds for purchase

Woman fights off her attacker

A GRANITE CITY WOMAN fought off her attacker early Sept. 1, and the combination of a good description and a quick police response resulted in the capture of a man who was charged with home invasion and attempted aggravated criminal sexual assault. Everett Leon Grubbs Jr., 23, 3009 W. 20th St., was arrested at the intersection of Niedringhaus Avenue and Walnut Street shortly after leaving a house in the 1700 block of Walnut, where he had allegedly tried to rape the woman. Grubbs was taken to the Madison County Jail.

House tour series continues

A SERIES ON the Downtown Neighborhood Restoration Society's House Tours will continue through the Sept. 18 issue of the Journal. The house tour is scheduled for Sept. 29.

Quote of the week — Judy Whitaker

"I JUST WANTED TO MAKE people aware of some of the tactics that are used in an election. I think it stinks." Granite City 6th Ward Alderwoman Judy Whitaker after saying that she had been threatened by a supporter of one of the candidates in the Nov. 5 school board election that if she did not support his candidate, her husband, Granite City High School wrestling coach Walt Whitaker, could be fired.

Astorian running for sheriff

GRANITE CITY — Another candidate for Madison County sheriff has tossed his hat into the ring.

Lt. Col. Robert Astorian, a member of the city's police department, said Monday he will seek the Democratic nomination for the countywide office.

"THE OFFICE of sheriff is extremely important to the people of Madison County," Astorian said. "I know that I can successfully carry out the duties of sheriff, breathing new life into that department, while upholding the high standards expected of the sheriff of Madison County."

Astorian said he thinks Sheriff Emil Toffant, who is not running for re-election, has done "an excellent job in bringing the department back to its feet." He said he plans to build on Toffant's policies and make the county department "second to none within the state."

Lt. Col. Robert Astorian

Astorian said he will not make any political promises.

Walden home has early century charm

By DONNA KIMBRO
Staff writer

Two old-fashioned, brown rocking chairs on the front porch at 2225 Delmar Ave. accent the home of Ralph and Ladonna Walden, a residence that is painted colonial gold.

The house was constructed in the early 1900s as a single-family dwelling. It later was used as a two-family residence.

RECENTLY, BUYING the house, Waldens recovered it into a single-family dwelling and began extensive work on the oak woodwork, now restored to its original beauty.

The home also has a distinguished oak stairway, restored to its original look. The stairs lead to the four-bedroom upper floor.

A piano from the 1920s dominates the living room, which is adjacent to the library.

THE LIBRARY features antique furniture and a storage cabinet. The cabinet, which has glass doors reminiscent of the 1900s, was used in its early years in a millinery shop, where it displayed women's hats.

A five-light brass chandelier in a breakfast room off the modernized kitchen was an original fixture of the home.

Another original element, the brick wall in the kitchen, was scraped and cleaned to restore its initial appearance. It helps provide an attractive kitchen setting in conjunction with the room's wall cabinets.

ALL WALLPAPER throughout the house is in an old-time design to coordinate the rooms and furniture of an older era.

Of special interest is a Victorian bedroom. The high headboard of a walnut bed features inlaid wood burlis, as does the walnut dresser.

Imported marble tops the center section of the dresser, which is accented with side drawers on either side.

GRACEFUL STRANDS of sparkling cut glass descend from the center of a ceiling chandelier in the Victorian bedroom. They extend to small, candle-type lights that help illuminate the area.

The home, which features an attractive entrance foyer, is included on the House Tour and Craft Fair being

OLD-FASHIONED FLAVOR of the Ralph Walden home at 2225 Delmar Ave. is evident as visitors approach the front door. Matching rockers under an etched-glass, arched window retain the look of the turn-of-the-century era, when the home was built.

ing sponsored by the Downtown Neighborhood Restoration Society (DNRS).

The event is scheduled for Sunday, Sept. 29, from 1 to 6 p.m. Advance tickets are available from any

member of the DNRS or on the day of the tour for \$3.50 per person.

ANTIQUE BICYCLES and antique cars will be exhibited on the parking lot of the First Presbyterian Church, 2160 Delmar Ave., where the craft fair will be held.

The Sweet Adelines vocal group will perform from 1:30 to 2 p.m. Sept. 29, Jeanine Nonn, tour chairman, said.

(Thursday's issue will feature the Kulenkamp home.)

A test you can take

Psychological testing in the U.S. government has come under fire from several congressional committees, who feel that asking job applicants a series of questions to gauge their personalities is an invasion of privacy. The test that has come in for the most criticism is the Minnesota Multiphasic Personality Inventory, a 566-question true or false quiz.

As an answer to the MMPI, one of its critics has developed the North Dakota Null-Hypothesis Brain Inventory, which the reader is invited to take right now. Answer true or false:

1. I salivate at the sight of mittens.
2. If I go into the street, I'm apt to be bitten by a horse.
3. Some people never look at me.
4. Spinach makes me feel alone.
5. My sex life is A-okay.
6. When I look down from a high spot, I want to spit.
7. I like to kill mosquitoes.
8. Cousins are not to be trusted.
9. It makes me embarrassed to fall down.
10. I get nauseous from too much roller skating.
11. I think most people would cry to gain a point.

Art Buchwald

12. I cannot read or write.
13. I am bored by thoughts of death.
14. I become homicidal when people try to reason with me.
15. I would enjoy the work of a chicken flicker.
16. I am never startled by a fish.
17. My mother's uncle was a good man.
18. I don't like it when somebody is rotten.
19. People who break the law are wise guys.
20. I have never gone to pieces over the weekend.
21. I think beavers work too hard.
22. I use shoe polish to excess.
23. God is love.
24. I like mannish children.
25. I have always been disturbed by the size of Lincoln's ears.
26. I always let people get ahead of me at swimming pools.
27. Most of the time I go to sleep without saying goodbye.
28. I am not afraid of picking

up door knobs.

29. I believe I smell as good as most people.

30. Frantic screams make me nervous.

31. It's hard for me to say the right thing when I find myself in a room full of mice.

32. I would never tell my nickname in a crisis.

33. A wide necktie is a sign of disease.

34. As a child I was deprived of licorice.

35. I would never shake hands with a gardener.

36. My eyes are always cold.

Now for the results. If you have answered more questions false than true, you should try for the Peace Corps.

If you answered 18 true and 18 false, you should apply for work with the Voice of America.

If you refused to answer some of the questions, you might work for the White House.

If you held your hand over the questions while you answered them, you should go into the FBI.

If you talk about this test to anybody else, then you could never get a security clearance and you'd better stay where you are.

U.S. oil reserves being depleted

United States oil reserves are fast being depleted except for some potentially enormous reserves offshore.

Presently, however, the Interior Department will now allow development of 45 million acres of the outer continental shelf because environmentalists fear that offshore drilling will endanger fish and bird populations along our coastlines.

And indeed there was a blowout in the Santa Barbara Channel in 1969; two million gallons of oil bubbled from the ocean floor and it did cover hundreds of square miles of sea, foul beaches and kill more than a thousand oil-soaked birds.

Hence the moratorium on offshore drilling.

This fall Congress will be considering that moratorium, comparing our urgent need for that oil to whatever risk is involved.

Interior Secretary Donald Hodel has been in California listening to all sides in the debate.

Meanwhile, a former deputy assistant secretary in the Department of Interior has

Good day
by Paul Harvey

done some research of his own — and with a most surprising result.

William Perry Pendley will report his findings in the next issue of the Heritage Foundation's Policy Review.

I sought and got permission to share the essence of that report with you now.

Understand, our nation's need for California's offshore oil is real and the harvest can be rewarding for us all.

We are talking about at least 2 1/2 billion barrels of oil, \$3.5 billion Uncle Sam would receive, \$9 billion which would churn through the United States economy, 80,000 jobs in California alone.

But — again — we still don't want to do damage to fish and birds and seascapes.

So let's compute the odds.

Over the past 15 years 5 billion barrels of oil have been

produced offshore — most in the Gulf of Mexico.

Fewer than 850 barrels have been spilled because of blowouts.

Most of the oil dumped in our oceans comes from rivers — including the Mississippi River.

There are many sources for such oil — underground seepage, ruptured tankers and motorists dumping crankcase oil into sewers.

But what really surprised these researchers was the discovery that offshore drilling is creating new ecosystems where fish thrive as never before.

Since the beginning of offshore drilling in the Gulf in 1953, commercial fish catches have increased fivefold and the catches include 150 new species!

So effective are these "artificial reefs" in propagating fish that the Japanese are spending \$300 million a year on similar "offshore rigs" even where there is no oil!

Did we again worry about the wrong thing? Apparently.

\$535,000 levy for GC parks

By DAVE WHALEY
Staff writer

GRANITE CITY — Over \$535,000 will be collected in taxes by the park district next year.

The levy ordinance, passed Sept. 4 by a 5-0 vote of the park board, provides for \$335,895 to be raised, \$7,000 less than the previous levy.

Taxes will be based on estimated tax rates of 15 cents per \$100 assessed valuation for general corporate purposes and 7.5 cents for the recreation program and facilities.

Taxation of real estate is applied to the district's assessed valuation, totaling \$200 million.

THE TOTAL LEVIED for each department is based on the amount budgeted for the department minus

the sum of estimated receipts and replacement taxes.

In the administrative department, \$42,800 is levied, with another \$74,755 to be raised in replacement taxes and receipts for an appropriation of \$117,558.

For parks, \$233,172 is levied out of an appropriation of \$238,518.

There is no amount levied for concession stands. All of the \$60,400 budgeted for expenditure there is expected to come from receipts.

FOR WILSON PARK'S swimming pool, \$12,425 is levied out of a total of \$62,425 budgeted, with \$11,600 levied for the ice rink out of \$76,600 budgeted.

Those five categories add up to \$300,000 levied for general corporate purposes.

Under recreation, \$38,175 is levied out of \$42,975 budgeted for neighborhood parks; \$58,280 is levied out of \$157,875 for the Wilson Park playgrounds; \$24,595 is levied out of \$26,995 for the Community House; and \$28,950 is levied out of \$38,550 for the Harold Brown Recreation Center.

THOSE FIGURES PROVIDE \$150,000 levied for recreation purposes.

Other levy figures are \$35,763 for the Illinois Municipal Retirement Fund, \$48,515 for insurance, and \$1,017 for preparation of audit accounts.

In 1984 for collection this summer, \$542,861 was levied, with the same tax rates.

Robert Stevens, Granite City clerk, said the vital statistics for the month of August 1985 were 38 deaths and 71 births.

71 births recorded

Tax rate won't change much

By VALERIE EVENDEN
Staff writer

The anticipated tax rate in Venice next year is not expected to change to any great degree from the current \$2.089 on each \$100 assessed valuation. City Attorney Lawrence Hartman said.

The Venice City Council adopted its 1985-86 tax levy Sept. 3.

THE NEW TAX LEVY of \$307,309 for collection in the summer of 1986 is down by \$33,870 from last year's \$341,179 levy and shows decreases in the figures levied for eight city funds. Four funds remained the same and none increased.

Assessed valuation in 1984, on which taxes are now being collected, was \$15,418,087. The real estate assessment base related to next summer's tax collection will not be known until 1986.

The present tax rate of \$2.089 was utilized in an actual levy extension of \$322,293, including \$16,790 for bonds and interest, an amount extended by law by the county clerk and added to the levy approved through City Council action. The \$305,503 basic extension differs from the \$341,179 sought due to valuation and rate limits.

AMOUNTS LEVIED for the

various funds, with last year's amounts in parentheses, are:

General, \$54,000 (\$63,270), down \$9,270; streets, \$16,000 (\$19,000), down \$3,000; police protection, \$24,000 (\$28,500), down \$4,500; audit, \$3,350 (same); street lighting, \$8,000 (\$9,500), down \$1,500; fire protection, \$24,000 (\$28,500), down \$4,500; garbage collection, \$32,000 (\$38,000), down \$6,000; police pension fund, \$63,877 (same); public library, \$24,000 (\$28,500), down \$4,500; municipal retirement fund, \$54,012 (same); emergency services and disaster agency, \$570 (same); and school crossing guards, \$3,200 (\$3,800), down \$600.

School levy, budget considered at hearing

By DAVE WHALEY
Staff writer

GRANITE CITY — A public hearing on a \$9,214,310 levy for 1985 (collection in 1986) will be held Sept. 24 at the school board office.

The board said it is not required by law to have a public hearing this year because the levy is not 5 percent or more higher than the 1984 levy (actually, it is .005397 percent less). But Norman Owca, director of finance for the district, said it has always "been the practice of the board of education to inform the taxpayers of what we are doing."

The 1984 levy was for \$9,264,310 with a total tax rate of \$3.4093 per \$100 assessed valuation.

THIS YEAR'S TOTAL school tax rate is estimated at \$3.3909, with all of the individual rates expected to be the same with the exception of

liabilities insurance, which is estimated to drop 1.84 cent, from 14.95 cents to 13.11 cents.

The levy includes all funds except bonds and interest.

The exclusion is because a certified copy of the 10-year bond and interest resolution has been filed in the county clerk's office to provide for issuance of the bonds and to levy a tax to pay for them.

COUNTY CLERK Evelyn Bowles will extend the tax, as set forth in the county clerk's office to provide for issuance of the bonds and to levy a tax to pay for them.

To avoid a possible duplication of levies, the levy for bonds and interest will not be included locally.

A special line on the official certificate of levy will provide information on the number of bonds that have not been paid in full.

ESTIMATED TAX RATES are as follows (per \$100 assessed valuation): educational fund, \$2.55; building fund, \$7.5 cents; transportation, 12 cents; retirement, 7.48 cents; working cash, 5 cents; life safety, 5 cents; liabilities insurance, 13.11 cents; and special education, 4 cents.

Actual rates will be determined after applying the levy to the district's new assessment total, which will not be known until next year.

The public hearing will begin at 7:30 p.m. Sept. 24, at which time a public hearing will also be held on the tentative budget for the 1985-86 year.

A copy of the proposed levy will be on file at the school board office beginning Sept. 12.

Asbestos work set for June

By DAVE WHALEY
Staff writer

GRANITE CITY Asbestos removal will be done in three buildings in the school district next June.

The school board Sept. 3 accepted an adjusted bid from Von Arx Construction Services Inc. of Maryland Heights, Mo., to do the job at a cost of \$39,800.

THE BOARD had accepted a bid from Von Arx in July to do the job for \$29,800 but decided to wait until after the 1985-86 school year.

Henry Gabriel, a local architect, was authorized to contact Von Arx to see if the firm would still be interested in doing the job next summer.

Board members said they would expect an increase in the cost for such a wait, and approved the bid unanimously.

ASBESTOS REMOVAL will be done in the high school gymnasium and at Coolidge Junior High School and Prather Elementary School.

The next lowest bid was \$46,694.

Fees for Slimettes sessions increased

A charge of \$7.50 per session will be made for Slimettes classes this year in the Granite City Park District.

The park board voted 3-2 to up the cost from \$1.50 per eight-week session for park district residents. There will be two eight-week sessions.

The charge for non-residents of the district will stay at \$17.50 per session.

Jeff Worthen, Nancy Miles and Dora Darnell voted for the new cost, with George Sykes and Barry Loman voting no.

The board also said it would look into the possibility of holding more of the Slimettes sessions during the evening.

City gets new flag

MAYOR VON DEE CRUSE ACCEPTS a new POW-MIA flag from David Wiesehan, center, and his son, David Jr. The new flag, commemorating the plight of prisoners of war and missing in action in Southeast Asia, replaces a worn and tattered POW-MIA flag that has been flown at the city hall daily.

Heart health class will start

Heart health and rehabilitation are to be emphasized here this fall. Although heart disease is the number 1 killer in America, the death rate of coronary artery disease has been decreasing in recent years. Factors responsible for this decrease are thought to include the public's awareness of the importance of a low fat diet, regular aerobic exercise, weight reduction, smoking cessation and high blood pressure control.

The Outpatient Cardiac Rehabilitation Program at St. Elizabeth Medical Center in Granite City is offering a six-week class will be half of the price. For more information or to register, the number heart disease, his family, and

anyone who is interested in preventing heart disease. The class will offer information on how to decrease the risk of heart disease and how to achieve optimal recovery if an attack occurs. "We feel the entire community can benefit from this class," a spokesman said.

Classes will be held for six consecutive Monday evenings from 6:30 to 8. The class will be offered beginning Sept. 23 for a nominal fee. If a person is interested in attending only three of the six classes, the fee will be half of the price. For more information or to register, the number is 798-3659.

Papering the house bane or blessing?

Sharon Toriello insists that papering encourages playgoing and helps theater survive.

But Rosalie Lazarus says the only thing papering encourages is more free theatergoing.

Joe Katz claims that a papered house is better than no house at all.

But Ivan Spiegel thinks that papering is killing Equity-waiver theater.

In case you're wondering, papering is giving away free tickets to help fill a theater. And as you may have guessed by now, it is a blessing to some, anathema to others.

Papering can provide an audience for a producer who needs one. It also can seriously cut into any profits, because the papered audience does not pay for its tickets.

Producers are willing to do this for several reasons: If the show hasn't taken off, the actors need people to perform for, especially on the nights when critics are in the house; if the show never takes off but continues running for a designated period, the cast really needs an audience.

Papering proponents say giving away free tickets also promotes word of mouth if the show is good, ultimately resulting in paid admissions.

Opponents say that's baloney, countering with the question: Who's going to pay for something they know they can get free?

What most papering organizations have in common is their modus operandi. For a fee, they provide their subscribers with a pair of free tickets to any of the entertainment offerings on their list for an unlimited number of nights a year.

The service contacts the producers of various shows — or in some cases the producers call them — to place an order. In the meantime, subscribers contact the service to find out what's available.

Toriello, founder of a Los Angeles-based papering company, says for \$50, her members can have a pair of tickets every night of the year if they want them (\$40 for those in the entertainment industry).

Although her membership list covers the spectrum, she says the mainstays are senior citizens and people on fixed incomes. "They're also people who tend to want to go out a lot."

"We have a 24-hour hot line updated daily to list all the events and nights of availability. Members call us back to make reservations, which we then make with the theater. All they have to do is

be at the box office 30 minutes prior to curtain and show their membership card discreetly."

If someone says he's coming and he doesn't show, the producer usually sends the word back to Toriello. If it happens repeatedly, that membership is canceled.

Toriello says the only reason she started the company was to help working rehearsals, press nights and preview audiences for producers and casts.

"And the only reason we continue giving tickets after productions open is to help fill empty seats or meet their specific needs. We never intend to take away business from the theater."

She says she encourages people to buy tickets when she doesn't have a particular show listed. "So I think if anything, we help people become more avid theatergoers. The more they see, the better it is for theater owners."

Rosalie Lazarus, a major group sales organizer, doesn't agree.

"Equity waiver has lost a major part of its business because of papering organizations. The producers think the person with the free ticket is going to spread the word about a good show. But what that person says to a friend is, 'I got it free. Why don't you?'"

"That's my assessment. And the producers, poor babies, they have to have an audience. These actors can't work if they don't have an audience, so it's a two-edged sword. Why would anyone in their right mind pay for anything they can get free? Right?"

Lazarus doesn't fault the theatergoers; she blames the producers. "They come back and ask where are the groups. So, hey, I give them the same line — I can't sell what you give away. What am I gonna do?"

"It's even hurt midsize theaters," she says. "These papering services have a hot line, so the subscribers hear the name of a show. It may be offered only once or twice, but the subscriber is willing to wait and see if it comes back. And these are people who can afford to buy the tickets."

Joe Katz runs the Los Angeles branch of a papering company that began in New York in 1979.

"Of course, papering has always existed," Katz says, "but the old method was to go out on the street and get derelicts or any semi-warm bodies to fill the house. Then the plan changed to getting interested people who would spread the word."

Katz says some of the producers he's talked to feel the papering organizations are getting rich off their misfortune.

For decoration Creating an interest for a condominium

Q. My condominium has nice-size rooms and a terrific view through sliding glass doors in the living room and bedroom. However, the plain walls and 10-foot ceilings seem rather dull.

I am starting to decorate my home and buy new furniture and want to create an elegant environment with a traditional theme. I like dark woods and English and French styles, but I don't want anything resembling a museum.

Please tell me how I might add some charm to my condominium so the furniture may be placed to its best advantage. — R.R.

A. Plain white walls and ceilings can seem overwhelmingly uninteresting and in need of architectural detailing.

You can create almost instant interest with an attractive wall covering. Or you could add to the wall covering a chair rail painted in a color contrasting with the fabric or paper.

Still more interest can be created by placing faux columns in the room's corners or by installing ceiling molding.

You can vary these treatments throughout your condominium, using a chair rail in one room, ceiling moldings in another and a combination of both in still another room. Any or all of these treatments could provide you with decorating drama.

Q. I am going to remodel my kitchen and am wondering what is considered a minimum amount of space for an aisle. — T.P.B.

A. Designers usually suggest that 48 inches is about minimum. That is necessary because many

cabinet doors open out 24 inches.

If only one or two adults are going to use the kitchen, 48 inches probably is adequate. If, however, there will be youngsters in the kitchen, 52 to 60 inches probably would be a great deal more comfortable if you can afford that much space.

Unfortunately, most of us have to work with what we have, and sometimes that's not always optimum.

Q. I'd like to build a small wine storage area in my kitchen/family room but am at a loss as to where the wine might best be placed. I want it convenient to its serving and use in cooking. What should I keep in mind in selecting a location? — T.B.N.

A. If you are collecting wine, you must be aware that you want to store it in an evenly cool place in your home. That often makes the kitchen a poor location. Certainly next to a stove or over a refrigerator (as often shown in kitchen magazines) is out of the question because of the terrific buildup of heat surrounding appliances.

If the family room has a cool northern wall, it would be handsome crisscrossed with wood to store and display your wine. Sometimes wine stored below a breakfast bar or counter is convenient.

Please send questions for Decor Score to Copley News Service, P.O. Box 1601, Lemon Grove, CA 92045.

Officers were questioning another person when Harshbarger allegedly began yelling about a charge pending against him. He is accused of then kicking a door and breaking its frame.

As police subdued Harshbarger, Sgt. William Fanning injured his right hand and was taken to St. Elizabeth Medical Center for treatment. Harshbarger was released from custody later after posting \$102 bail.

Gun taken from man; 5 charges

Charges are being processed against a Venice man who allegedly had a weapon in his possession and became abusive with officers in the midst of a large crowd of bystanders Aug. 30.

Complaints alleging reckless conduct, resisting a peace officer, battery, unlawful use of a weapon and not having a firearm owner's identification card were filed against the man by officers and a court summons will be issued, a Venice police officer said.

Police went to Klein and Bissell streets in response to a report that shots were fired. A man began walking away from officers. When told he was to be searched, he used profanity and continued to walk. During efforts to restrain and handcuff the man, one officer was struck in the face. A .38 caliber chrome-plated revolver was removed from the man's waistband by police.

A crowd of people had gathered at the scene and was becoming hostile toward those involved, reports said. To avoid injury to bystanders, it was decided to release the man to his parents, who were at the scene, pending the summons being served.

Astorian said he has "a grasp" on the wants and needs of both the citizens and police officers, through his experience with the local police department.

He has served with the Granite City Police Department for 23 years. During that time, Astorian has worked in the patrol division, supervisory street patrol, commander in charge of the investigative unit, and currently is commander of the police operations bureau.

of the water and operating and maintaining the water system.

THE WATER BILLS may be lower than originally anticipated, Cortew added, because of the low interest rate and because the district obtained more users than anticipated.

The district will hire a part-time certified operator to maintain the water system, Cortew said. In addition, clerks to handle billing and of Illinois-American found it was not economically feasible for the water company to extend its mains to Arlington Heights.

HIS EDUCATION includes a bachelor of arts degree from Southern Illinois University at Edwardsville, an associate degree in law enforcement from Belleville Area College, a certificate of proficiency in law enforcement from BAC and nine graduate hours from the University of Virginia.

He has also graduated from the FBI National Academy and the Dektor Counter Intelligence School.

He is a member of several associations, including the Southern Illinois Police Chiefs, Madison County Police, Illinois Police Officers,

Police Benevolent and Protective Association, FBI National Academy Associates of Illinois, FBI National Academy Associates of the Eastern District of Missouri and the Tri-Cities Area Chamber of Commerce Law Enforcement Committee.

"Through my experience, education and administrative abilities, I feel I can diplomatically channel all my efforts to making the sheriff's department effective, respected and professional," Astorian said.

"I WILL PROVIDE an air of openness in that department that has never existed in the past."

For nine years, Arlington Heights residents have been working for a water system to serve the subdivision.

THE ARLINGTON HEIGHTS Water District was formed by election in September 1982.

The latest FMHA loan application is the fourth for the subdivision. Previous applications were rejected.

Arlington Heights residents have sought a water system because of the high mineral content of well water in the subdivision.

VENICE BOARD incumbents seeking new four-year terms are Alvester Salmont, George Wade, Kirk Gardner and David Levy.

Others on the ballot for the Venice school board are Joe Willie Roberts and Gregory Katana.

No withdrawals in elections

No candidates withdrew before the withdrawal deadline Thursday afternoon, leaving 28 on local education board ballots for the Nov. 5 election.

In the Madison School District, four four-year positions are being sought by James E. Newsome, Billie Bosworth and Ed Dohal, incumbents, and by John Hamm, Mike Mack and Don Bridick.

ED WARKOL, an incumbent Madison board member, is unopposed for a two-year board post. President Paul Bargiel did not file for re-election to the board.

For the Belleville Area College Board of Trustees, incumbents Curt Eckert and Avery Schermer, the latter a Granite Cityan, are running for new six-year terms. Schermer is chairman of the college board.

Dr. James West, also an incumbent trustee, is seeking an unexpired two-year term. In addition, Larry Reineck of Fredburg is a candidate for a six-year seat and Francis Braswell of Belleville is seeking the two-year position.

RESIDENTS of multi-county BAC District 522 also will vote Nov. 5 on a 14-cent tax rate increase for the college; 53 percent of the added funds would go to the Granite City Campus.

Four four-year school board positions are to be decided in the Granite City School District. Incumbents running are Alan Crider, Ruth Lehr and Monroe Worthen; Thomas Miosky did not file for re-election.

Others seeking election in Granite City District Nine are Gerald McKeehan, Jolene Travis-Terrell, Sheila Moran, Mark Maynard, Vicki

Astorian said he hopes to establish a method agreeable to all county law enforcement agencies to provide for the proper transportation and receiving of prisoners. He also

would develop a new program for providing assistance to county agencies as needed.

Astorian said he has received "whole-hearted, enthusiastic support" from members of the Granite City police department.

Heavy filing causes court case backlog

July was a busy month for both filing and disposition of court cases for the Circuit Court, Third Judicial Circuit (Madison and Bond counties), according to Court Clerk Willard V. "Butch" Portell.

During July, he noted in his report to the Supreme Court administrator's office, 5,871 cases were filed and 5,363 were terminated by the court.

"There was a loss in currency (the number of cases cleared) in almost all categories, with the exception of divorce and misdemeanor," Portell said. "There has been a slow loss of currency each month in the felony division, and this division is slowly achieving a backlog. However, most of these are fugitive cases."

"The 5,363 cases terminated are about 600 above the average month. This heavy filing is due to traffic, ordinance violations and cases of this nature where more people are participating."

Portell also noted a shortage of judges due to vacations and staff vacations in the circuit clerk's office.

"This loss of currency is normally acceptable during the summer months and will be regained starting in the fall months," Portell said.

Following are the numbers of each major type of case filed, terminated and pending at the end of July:

Cases	Filed	Terminated	Pending
Law cases seeking more than \$15,000			
Jury	51	56	1806
Non-jury	60	26	634
Law cases seeking \$1,000 to \$15,000			
Jury	7	8	245
Non-jury	42	78	456
Other cases			
Chancery	32	28	392
Miscellaneous Remedy	28	22	284
Eminent Domain	9	2	87
Mental Health	45	37	13
Divorce	176	177	1199
Family	113	97	2306
Juvenile	80	43	458
Felony	72	69	248
Misdemeanor	460	548	3385
Small Claims	631	359	2445
Totals	1,806	1,548	13,918

In the traffic division, 3,499 new cases were filed during July and 3,234 were terminated, the report shows.

Of the 81 felony cases heard during the month, 49 persons were convicted of felonies, four cases were discharged, 16 were dismissed or transferred and 12 were dismissed or consolidated.

GUILTY pleas during July included four for Class X felonies, two for Class I felonies, 21 for Class 2 felonies, 16 for Class 3 felonies and six for Class 4 felonies. Felony sentences during the month included 27 persons sent to prison, 14 receiving probation or conditional discharge with periodic imprisonment, and eight receiving probation or conditional discharge with other discretionary conditions.

Waylon Jennings, Johnny Cash slated at Fox

ST. LOUIS — Johnny Cash, originally scheduled Aug. 20 through 25 as part of the Fox Summer Subscription Series, was forced to postpone his Saturday and Sunday concerts (Aug. 24 and 25) due to the death of his sister-in-law, Mrs. Roy (Dean) Cash, and major surgery on his father, Ray Cash, on Friday, Aug. 23.

Many consider the rescheduled concerts to be the country-western

event of the year in St. Louis — Johnny Cash and Waylon Jennings with special guests June Carter and Jessi Colter in four concerts Sept. 14 and 15.

It was Cash who suggested that Waylon Jennings' concert, scheduled for Sept. 13, be canceled and merged with the rescheduled Cash dates. The calls were placed and the concerts were personally confirmed by Jennings when he called Cash.

Rarely do these two close friends get to be together on stage due to conflicting schedules. When they do, crowds come out for the event. They performed together this February at Radio City Music Hall and again July 5 in Chicago at the Brookfield Zoo before capacity audiences.

Ticket holders for Cash's original dates for Aug. 24 and 25 and for the Jennings concert scheduled for Sept. 13 will need to return their tickets to

the point of purchase so that new tickets can be issued.

This is a new concert event and the same seat locations cannot be guaranteed; however, the box office personnel will make every effort to accommodate seating as close as possible to the previous seats. Subscription tickets for Saturday and Sunday will be honored at the respective shows and do not need to be returned.

Tickets prices are \$17.90, \$14.90, \$11.90 and \$6.90. Tickets may be purchased at the Fox box office located at 527 N. Grand Blvd., St. Louis, Regal Sports at 3131 Olive, Team Toys and Tickets at Chesterfield Mall and Northwest Plaza, and all Famous Barr and Dillard's Ticketmaster locations. To order by phone, interested persons may call 1-314-534-1111. Visa and Mastercard are accepted.

Basket-making, blowgun classes set

Wood Bell and his sister, Minnie Bell, will be teaching classes in the traditional arts of cane baskets and blowgun Sept. 28 and 29 at Cahokia Mounds Historic Site.

Wood and Minnie Bell, Choctaws from Chucalissa Museum in Memphis, Tenn., learned traditional crafts from their parents on the Choctaw reservation.

Wood Bell, a guide and demonstrator at the museum for 13 years, promotes Indian heritage at the schools in Memphis. Minnie volunteers her time teaching and demonstrating various native

crafts. The Bells hope to rejuvenate nearly forgotten Indian crafts.

The cane basket class is a two-day class starting at 10 a.m. on Saturday, Sept. 28, and 9 a.m. on Sunday, Sept. 29. Students will use a wild cane brought up from the Tennessee swamps to make the baskets. This cane once grew in this area and was used by Cahokia Mounds' prehistoric residents to make baskets.

Students will learn the different phases of basket construction by making a small basket.

The blowgun class will begin on Saturday afternoon at 1 p.m. Wood Bell will begin the class by discussing decorative design found on blowguns, as well as the two different styles. Students will make a blowgun and dart from cane. The class will conclude with students learning the safe proper use of blowguns.

The \$15 fee for the cane basket and the \$5 fee for the blowgun class must be received by Sept. 20.

For more information about these craft classes or the 1985 craft program, interested persons may call Cahokia Mounds Museum at 344-5282.

The 1985 craft class program is made possible through Cahokia Mounds Museum Society and Pepsi-Cola Alton Bottling.

Porcupine quill class at Mounds

A porcupine quill class will be held Saturday, Oct. 19, from 10 a.m. to 4 p.m. at the Cahokia Mounds Historic Site museum, 7850 Collinsville Road. Before the introduction of glass beads by Europeans, American Indians used seeds and quills to decorate their clothing, pipes, birch boxes and other belongings. It is unknown how far back in time the art of quill work actually dates.

JOURNALS OF EARLY explorers mention the fine natural-dyed quill work found on Indian clothing.

Tribes with the most elaborate quill work lived just outside the boundaries of porcupine habitat. These tribes traded for quills.

Mary Jane Vogler, a Cherokee who has shown her work at the St. Louis Art Museum and in heritage events, will instruct the class. She

will begin the class by lecturing on early forms of decoration used by the Indians.

She then will demonstrate how to properly remove quills from the hide, plus cleansing, sorting and natural drying.

STUDENTS WILL LEARN how to wrap the quills onto rawhide. If time permits, students will also learn quill weaving.

Registration and a \$10 fee must be received by Oct. 10.

For more information about the quill class or the craft class program, Quad-Citians may call the museum at 344-5282.

The March to November craft class program is sponsored by the Cahokia Mounds Museum Society and Pepsi-Cola Alton Bottling Inc.

Bluegrass festival planned at Lincoln's New Salem Park

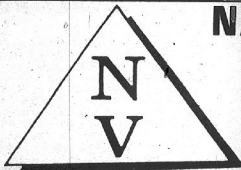

Lincoln's New Salem State Park will be holding its fifth annual Traditional Music and Bluegrass Festival from 10 a.m. to 5 p.m. on Sept. 21 and 22. According to Matt Patterson, festival coordinator, the event is

free to the public. He invites all traditional, folk and bluegrass musicians to join in the weekend festival. Musicians from throughout the Midwest will provide entertainment. Visitors will be able to hear musicians playing guitars, banjos, mountain dulcimers, hammer dulcimers, concertinas, bones and autoharps. Also expected to participate in the event are traditional dance groups. The event, which usually attracts 10,000 people, gives musicians a chance to show their talents in the rustic New Salem setting. "It's an open festival for anyone who wants to play a non-electrical instrument," Patterson explained.

"It gives people a chance to meet people from another place and perform some music." The village buildings will be open, with costumed staff and volunteers performing crafts and interpretation of the period.

To make a weekend of it, the family can visit nearby Petersburg for the Victorian Days Festival. This festival features street dances, exhibits and other attractions throughout Saturday. Also on Saturday, the Clayville Rural Life Center will be holding an antique show and sale. For further information, in-

terested persons may contact Matt Patterson at Lincoln's New Salem State Park or call 1-217-632-7953.

Travel

A tale of two great cities: London versus Paris

Contrasting London with Paris is like comparing Chateaubriand with an English rib roast — both are prime selections, but with distinctly different taste.

London is brass, bold, bright, sometimes bizzare, but always blending well with all nationalities. Paris is what many would think as more European: beautiful, Bohemian and blatantly nationalistic.

London and Paris have bustling traffic with drivers zipping through lanes like a real life video game. Both cities are clean and comfortable with more sights and attractions than could possibly be covered in an article such as this.

One feels safe, walking the streets day or night in central sections of London or Paris. The familiar Bobbies are seen everywhere in London and the legionnaire hats of the Parisian policeman are evident throughout the French capital.

With the strength of the U.S. dollar in Europe, there are bargains to be found in London and Paris, however, most are in the quality goods category. French perfumes, Scottish wools (at Windsor), fine china are among the best buys. Entertainment may be the best bargain in London and fine dining at your better restaurants is lower in cost in both cities than in many large American cities such as Boston, New York or San Francisco. London theatre tickets cost half what they would in New York and that includes such top Broadway shows as "Cats," "Dreamgirls," or "Evita." There's also a half-price ticket booth for the

day of performance shows at Leicester Square.

Both London and Paris have good subway systems, but we found London's "tube" easier to get around than Paris' "Metro" partly because the "Metro" map is written in French and different lines are not as easily identifiable in the stations as the London subway. Cab prices are about the same in both cities and most of the central core attractions are within a \$2 cab fare from the central city hotels.

Anyone coming to these great European cities should be equipped with a good guide book and recommendations from friends who have been there. You meet a lot of too can offers valuable information on where to go, dine and get the most for your U.S. dollar.

If you only have a short time in either city, like we did, it's probably best to book a tour, particularly in Paris where the guides speak English. Half-day and full-day sightseeing tours are available at reasonable prices through several companies such as London Transport and Paris Visions. The London tours include all the top attractions such as Westminster Abbey, the Changing of the Guard at Buckingham Palace, the Tower of London and Big Ben. A visit to the Abbey, where many of the great British writers and statesmen are buried, is included on most London tours.

In Paris the big Europa tour buses take you past the Arc de Triomphe, the Louvre, the Latin Quarter and

The French capital

along the Champ-Elysees. Almost any Paris tour includes a stop with time to visit the magnificent chapel of Notre-Dame. For a different perspective of the beauty of Paris, try an excursion at dusk along the Seine River. An illuminated tour brings out the beauty of this wonderful city to its fullest.

Two not-to-be-missed attractions are located just outside the two cities. Windsor Castle in England and Versailles in France offer great perspectives of the monarchy of these two great nations.

It's probably best to go to Windsor on your own. You can take a tube or the red double-decker London bus to Victoria Station, where you pick up the Green Line for a direct 45-minute ride to the weekend retreat of Queen Elizabeth, Prince Charles and Lady Di.

If you visit on your own, you can

take your time experiencing St. George's; the chapel of the Knights of the Garter; Queen Ann's dollhouse; and if you're really lucky, the State Apartments, open when not occupied by members of the Royal Family.

Take time in the town of Windsor to explore the shops, have lunch at one of the small town English pubs, or visit the lifelike kingdom of Queen Victoria at Madame Tussaud's incredible wax museum. The details and realism of Queen Victoria, entering her carriage with a platoon of bear-skin hat English troops in the courtyard are a moving experience.

The two best meals we had were both French, however, one in London and right in our hotel! The Mayfair, one of the fine stately English hotels of central London, features a fine dining restaurant called Chateaubriand where one can guess what a favorite dish is. A full course French meal, with wine for two, was about \$50.

In Paris our best meal was at, of all places, the Eiffel Tower where we dined at a nice restaurant on the first level of the gigantic tower. Although this was an obvious tourist place, after walking throughout Paris searching for a restaurant where we could understand the menu, a complete French dinner with wine for \$35 with a fantastic view of the city from 300 feet up was a great deal!

First-class hotels in both Paris and London are about as expensive as those in the States, and most were booked solid all summer. The affluent Mayfair area of London, only a short distance from Piccadilly and the theater district, features some of the world's finest hostilities including the Connaught, the Hyde Park, the Britannia, the Inter-Continental London and the Mayfair. One evening in the lobby of the elegant Mayfair we met Geraldine Ferraro, who was in town for meetings with Margaret Thatcher.

Steamed pudding

3 medium fresh nectarines, sliced (2 cups)
6 tbsp. sugar
1 1/2 cups flour
1 tsp. baking powder
1 tsp. grated orange peel
1/2 tsp. salt
1/2 cup butter or margarine
1/2 cup nuts, chopped
1/2 cup raisins
1/2 cup milk
Orange Sherry Sauce

In 1 1/2-quart heatproof bowl, mix nectarines with 4 tablespoons sugar; set aside.
In another bowl mix together remaining 2 tablespoons sugar, flour, baking powder, orange peel and salt. Cut in butter until mixture resembles coarse meal. Stir in nuts and raisins. Stir in milk to blend.
Pat evenly over nectarine mixture. Cover tightly with aluminum foil; tie securely with string near top of bowl. Place on rack in deep pot. (See Note.) Add boiling water to

cover 1/2 of the way up side. Cover pot.
Boil gently 1 hour and 25 minutes, adding boiling water as needed to maintain correct level. Remove from pot; let stand 5 minutes.

Invert pudding onto serving plate. Drizzle with 1/2 cup Orange Sherry Sauce. Garnish with mint sprigs, if desired.

Serve hot, passing remaining sauce separately.

Makes 8 servings.
Orange Sherry Sauce: In 1-quart saucepan, combine 1/4 cup packed brown sugar and 2 tablespoons cornstarch. Whisk in 2 cups orange juice. Bring to boil over medium heat, stirring constantly. Reduce heat and simmer 5 minutes.

Add 2 tablespoons butter or margarine; stir to melt. Stir in 2 tablespoons sherry.

Serve hot.
Makes about 2 cups.
Note: Steaming can be done in a slow cooker on high about two hours.

The good foods of Italy

FERRARA, Italy — The menu
began with salmon and caviar and
didn't deviate from its briny origin
for the next three courses.

Shrimp salad served in a goblet
with a crayfish garnish followed,
and hard on its heels came a med-
ley of seafoods that included baby
clams, sardines, sea bean salad,
tuna, caviar, mussels and squid.

The fourth course continued the
parade: eel, more crayfish, sole,
flounder, squid — both deep-fried
and grilled — scallops and a by-
now-desperately-needed change of
pace, a tray of fresh raw vegeta-
bles.

The dessert course came, thank-
fully, without a fin in sight.

It was not my favorite meal in
eight days of exploring the gasty-
tatory delights of Emilia-Romagna,
the culinary heart of Northern
Italy, but it may be the one I'll
remember the longest.

To one reared on the image of
Italy as the land of pasta, *parme-
giano* and pizza, it came as a real
eye-opener.

Seafood is, as a matter of fact,
Italy's second most important
staple. Most of the country's prov-
inces have seacoasts, and each
year Italians pull nearly 700 mil-
lion pounds of fish from the wa-
ters of the Tyrrhenian and Adriat-
ic seas — not to mention huge
quantities of shellfish and crusta-
ceans.

Still, pasta is king in Italy, and
that's what I'll recall with great-
est fondness — rich, eggy pasta
served firm and chewy (when Ital-
ians say *al dente*, they mean it) in
an endless succession of sizes and
shapes.

TORTELLINI WITH RAGU BOLOGNESE

Filling:

2 1/2 cups finely chopped
cooked chicken (3 single
breasts, boned and
skinned, and poached in
stock for 15 minutes)

1/2 cup freshly grated im-
ported Parmesan cheese
2 egg yolks, lightly beaten
1/4 tsp. grated lemon peel
1/4 tsp. ground nutmeg
Salt and freshly ground
black pepper

1 double recipe pasta dough
(recipe follows)
6-8 qts. water
Salt

Ragu Bolognese (recipe fol-
lows)

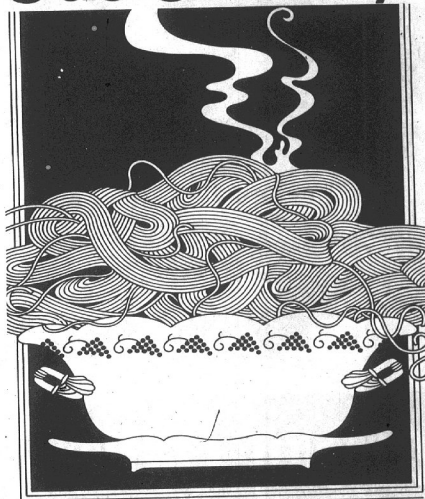

Mix chicken, cheese, egg yolks,
lemon peel and nutmeg in large
bowl until thoroughly combined.
Season with salt and pepper.
Break off one-fourth of pasta
dough, keep the rest moist by cov-
ering with foil or damp cloth.

Roll out dough on floured board
until paper thin, then cut into 2-
inch rounds with biscuit cutter or
small glass. Place 1/4 teaspoon of
chicken mixture in center of each
round. Moisten edges of each
round.

Fold circles in half and press
edges firmly together. Shape into
little rings by stretching tips of
each half circle slightly and
wrapping ring around your index
finger. Gently press tips together.

Tortellini are best if cooked at
once, but they may be covered
with plastic wrap and refrigerated
for a day or so.

Bring water and salt to boil in
heavy pot or kettle. Drop in tortel-

PASTA

lini and stir gently with wooden
spoon for a moment to make sure
they do not stick to one another.
Boil, stirring occasionally, for
about 8 minutes, or until tender.
Drain into large sieve or colander.
Serve with ragu bolognese or in
hot beef or chicken stock.
Makes about 80, enough for 8 to
10 servings.

Versatile turkey tempting to cook

September heralds the end of leisurely days with the return to school and activities. However, the tastes and style of summer are hard to leave behind.

Active, calorie-conscious Americans look for foods that are high in nutrients, low in calories, easy on the budget and quick to prepare. Turkey fills the requirement perfectly. It is available whole or pre-sectioned, cooked or uncooked.

Turkey Salad

Bloody Mary Style

1 tbsp. olive oil
1 tbsp. plus 2 tsp. vegetable oil
2 tbsp. + 2 tsp. red wine vinegar
2 large cloves garlic, pressed
1/2 tsp. oregano leaves, crushed
1 tsp. salt
2 cups roasted or smoked turkey, cut into strips or slices
1/2 cup tomato juice (or bloody Mary seasoned tomato juice)
8 drops pepper sauce
1/2 tsp. lemon juice
1/4 tsp. Worcestershire sauce

1 head Romaine lettuce, torn into bite-sized pieces
1 red onion, thinly sliced
1 green pepper, seeded, cut in half and sliced
3 large tomatoes, cut in wedges

Mix olive and vegetable oil, vinegar, garlic, oregano, salt, turkey, tomato juice, lemon juice and Worcestershire in plastic container or jar. Close and shake well.

If using Bloody Mary seasoned tomato juice, omit lemon juice, pepper sauce and Worcestershire. Trim turkey of any rind before cutting. Marinate turkey in half of dressing.

Arrange lettuce, onion, pepper, tomatoes and turkey on individual plates or serving platter. Dress salad immediately before serving.

Cumberland Sauced Turkey Barbecue

3 or 4 turkey drumsticks or wings
2 tbsp. margarine
1/2 cup plus 2 tbsp. red or black

currant jelly
1/4 cup port wine
2 tsp. prepared mustard
2 tsp. lemon juice
2 pinches cayenne pepper
1 tsp. salt

Combine margarine, jelly, wine, mustard, lemon juice, salt and pepper. Heat just until melted and mixture is combined. Cool slightly.

Wash and dry turkey parts. Place on large piece of heavy duty foil. Brush liberally with sauce. Fold foil securely over top and at ends. Place on grill.

For wings, allow about 1 hour 10 minutes. Drums require 1 hour 30 minutes. Open foil and turn after 20 to 30 minutes. Reseal well.

Last 30 minutes, remove from foil and place directly over hot coals to brown. Turn and brush with glaze of ten.

Reheat remaining baste as a sauce for turkey parts or slices.

Note: Sauce can be used to glaze whole turkey or less turkey roast.

Orange parfait

1/2 cup sugar
1 envelope unflavored gelatin
2 cups orange juice
1 cup heavy cream, whipped
In medium saucepan combine sugar and gelatin. Add 1 cup orange juice; stir over medium heat until sugar and gelatin are dissolved, about 4 minutes.

Remove from heat; stir in remaining 1 cup orange juice. Chill until mixture is consistency of unbeaten egg white.

Fold in heavy cream. Spoon into Meringue Shells or individual dessert dishes.

Yields 6 servings.

Meringue Shells

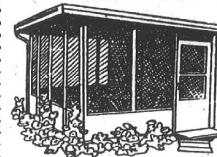

3 egg whites
1/4 tsp. cream of tartar
1/4 tsp. salt
1/4 cup sugar

Beat egg whites until foamy; add cream of tartar and salt; beat until stiff but not dry. Add sugar gradually, beating until very stiff.

Cover baking sheet with aluminum foil or heavy brown paper. Pipe meringue into 6 rounds about 3 inches in diameter. Make a 2-inch depression in the center. Bake in 275 oven 1 hour.

Yields 6 meringues.

Kickers escape with 2-2 draw

By GREGG OCHOA
Journal Sports Editor

ALTON — In a game of hot and cold, up and down, feast and famine, the Granite City High School soccer team could consider themselves lucky.

For the second time in three games, the Warriors were sent into overtime Monday and played unbeaten Alton Marquette to a 2-2 draw to Gordon Moore Park. The game was halted after the 10 minutes of overtime because of darkness.

"You couldn't find a better match around and not have to pay any money," said Explorers coach Mike Velloff.

"For us, this game was big a psychological lift."

It was the first time since the two schools started playing one another that Marquette had earned a tie against the Warriors.

"Granite City is the powerhouse on the Illinois side," Velloff said. "Anytime you can tie them it's a big thing."

The Warriors almost lost this one. Dennis Gaudreault's header with 3:30 left in the match sent the contest into overtime. The goal came off a corner kick lofted toward the goal by Jim Chomko.

"We were going to drop back and play more defensively, but the goal came so quickly. We didn't have time," Velloff said.

Approximately 30 seconds prior to Gaudreault's goal, Marquette took a 2-1 lead — it's first of the game — when Tom Nott broke in alone on the Warrior goal. Nott tried to take Granite City goalie Matt Krekovich wide, but Krekovich went out to meet the Explorer and pulled him down.

Nott was awarded a penalty shot and deposited in the lower right hand corner of the net.

"It seems like we always score after the other team," said Warrior Coach Gene Baker. "When the pressure's on."

Ironically, Marquette's go-ahead goal centered around Krekovich's action. He was a starter only because Terry Dutko was nursing a sore foot. As a replacement Krekovich played well, making several key stops.

Baker said Dutko should be ready Thursday when the Warriors play Collinsville.

Both teams used back up goalies. Lance Buzzell was in goal for the Explorers replacing Greg Zerwas who

broke his arm against Triad. Zerwas is expected to be out three to four weeks.

The Warriors, who won their first game of the year Saturday against Belleville East, got off to a sluggish start. Marquette seemed to control the early tempo of the game and have the better scoring opportunities.

The game remained scoreless after the first 20 minutes. Then the Warriors started to take control. Todd Adamitis rocketed a shot into the net on a perfect cross from Chomko to give Granite City a 1-0 lead at the 25 minute mark.

The goal, however, wasn't set up by vintage Granite City play. Instead of crisp passing, the Warriors played a wide open kick and run game and caught Marquette napping.

For the remainder of the first half, the Warriors picked up the tempo but didn't score. For the half, Granite City outshot Marquette 5-4.

In the second half, the Warriors attacked in spurts. Early in the quarter, Jeff Zukas made a nice move to beat a Marquette defender and passed off to Scott Biason. However, his shot sailed over top of the goal.

The play seemed to spark new life into the Explorers who picked up the pace of the game. At approximately the 58:00 mark, Marquette tied the game on a goal by Jeff McKell.

Granite City got a bad break on the goal. Nott fired the original shot which was blocked by the Warrior defense. The ball, however, bounced right on the toe of McKell who rifled it into the net. Krekovich had no chance on the play.

Play started to get even more physical in the fourth quarter and was rough throughout. The referees issued six yellow cards and two red cards.

The first red card, issued to Granite City's Dave DeFousse for an intentional hand ball, forced the Warriors to play most of the overtime period short-handed.

All told the officials were busy blowing the whistle. A total of 48 fouls were called in the match.

After the game Baker was second-guessing some of the calls, but said: "We should play better despite all that."

Baker was concerned of his team's play in light of several mechanical breakdowns.

"We're not executing," Baker said. "The kids are not motivating

themselves."

The Warriors coach, however, is not panicking. "We have the makings of a pretty good team and I think we will be one before it's all over."

In the 10-minute overtime session the game was almost over. Chomko boomed a shot for about 25 yards out that hit the crossbar. About a minute later, Adamitis broke in but the shot went wide.

Then, in an instant, the pendulum swung the other way. After Marquette's Chris Kane was ejected for foul language, the Explorers bounced back.

Andy Butler smacked a ball toward the Warrior goal, but Krekovich punched it out. With about a minute left, Marquette's Matt Brown hit the crossbar.

"Everybody was pumped up," Velloff said. "Our players are both happy and sad."

For Granite City, this time they can be happy they just escaped.

Cougars ink South African

EDWARDSVILLE — Head Coach Bob Meyers and the men's tennis team at Southern Illinois University at Edwardsville took another step closer to rebuilding the program this week as Dion Constandino Joannou signed a national letter of intent with the Cougars.

Joannou, a native of Johannesburg, South Africa who attended St. Louis' Ritenour High School last year, joins the Cougars after reaching the finals of the Missouri High School State Championship Tournament. A district and conference champion, Joannou posted a 26-2 record in 1984-85.

An outstanding all-around athlete, Joannou also earned All-Conference, All-Metro, All-County and third-team All-State honors in soccer. He was also selected to participate in the St. Louis All-Star soccer game last year.

The 5-foot, 11-inch freshman becomes the third tennis player to sign with the Cougars in the last two weeks. Last week, Carlos Perez of Venezuela and Steve Holmes of Gig Harbor, Wash., inked a letter of intent with the SIUE tennis team.

The 1985-86 Cougars will make their return to the courts after a year's absence, Oct. 11-12 when they host the Intercollegiate Tennis Coaches Association Regional Championships. The men will also participate in the Illinois Inter-

collegiate Championships in Carbondale (Oct. 25-26) and host the Seven-Up Invitational Tournament

at the Oak Hill Racquet Club in Belleville (Nov. 8-9) to complete the 1985 portion of their 1985-86 season.

'Wrong way' can't change Warriors finish

By KEN PERKINS
Staff writer

GRANITE CITY — If there's a runner who knows Granite City High School's cross-country course like the back of her hand, it's Lora Wiser.

She jogs it before workouts, during workouts, and warms-down on it after workouts.

But at the tailend of Saturday's Granite City Invitational, word was circulating that Wiser was disqualified for, of all things, running the wrong way.

She was shocked.

"I was stunned," Wiser said.

That, too.

"All I thought about was whether I was disqualified. But I knew I couldn't be. I just couldn't be disqualified."

Less than 200 yards from the finish line the top three runners in the girls' race, Lincoln's Celisa Shy and Joan Simmons and Mt. Vernon's Lucy Mays, all went around a cone (course obstacle) with the blessing of a meet official, one of the area coaches.

Apparently, the coach was under the impression that the girls looped around the cone just like the boys did two races earlier. But that wasn't the case. They were suppose to bypass it.

Wiser, roaring up the rear in fourth position, saw the mishap and literally stopped in her tracks.

"I just stood there," she said, "wondering what to do."

For at least five seconds, Wiser stood there, wondering what to do.

"I just figured I'd run it the way I thought it should have been run," she said.

As she did, the pack on her heels refused to follow. Instead, they, too, went around the cone. Which brought up the conclusion that the majority was in the right; Wiser in the wrong.

"But actually," Warrior head coach Dave McClain said later, "she was the only one who did it right."

After the initial shock, and a chuckle or two, Wiser got down to more serious business, like savoring her team's second place finish in the first major prep meet of the 1985 season.

Lincoln's top finish — they scored an impressive 24 points — did little to dampen the Warrior spirits. Granite City scored 94 points, 17 more than third place Mt. Vernon. Triad (127) was fourth and Hazelwood Central (133) was fifth. In the boys version, Granite City finished 11th out of the 17 teams competing. Lincoln captured top honors with 50 points. Springfield Lanphier was second with 71, while Mount Vernon (92), Belleville West (185) and Jacksonville (216) rounded out the top five.

"I was very pleased with the girl's performance," McClain said.

"Lora is the kind of runner who progresses with the season, so it's impressive to see her running like this so early."

Wiser was impressive from the start. She battled Lincoln's duo, Shy and Simmons, most of the way and was joined by Mays mid-way through the race.

With a mile left, Shy and Simmons started to open the lead.

It didn't matter much to Wiser, who said, "I felt great at that point. They weren't getting too far ahead of me."

"But then when I got close to the finish and saw everyone going the wrong way, it shook me up."

Wiser clocked in at 13:30. Shy was 13:09, Simmons, 13:12 and Mays, 13:15.

"She'll be one of the top runners in the area this year," McClain said of his star pupil. "There's no doubt in my mind."

And Granite City should be one of the top teams as well. They placed four runners—Wiser, Melody Witt (14), Lisa Wiser (24) and Sheila Noel (25) in the top 25 and had a 3RD (Marianne Finn) and 4th (Faye Patton) place finishes.

Lincoln, which returned all of its 1984 squad that placed sixth at the Illinois State Championships a year ago, fielded runners in the Nos.

1,2,6,7,8 and 12 spots.

"They're an awfully good team," McClain said of the Tigertettes.

"We're just hoping to keep them honest."

As expected, Alton's Norman Blisbury captured medalist honors in the boys' race, circling the course in 15:21.

Todd Isom was the first Warrior to finish. He was 41st in 17:34. Following Isom were John Varadian (48), Charlie Porter (49), Steve Shaw (66), Jake Varadian (71), Paul Brandt (74) and Bob Stroehmer (78).

"We didn't run very well," McClain said of the boys. "We've got a lot to work on still."

Lincoln's Cecil Shy, Celisa's twin brother, was fourth for the Tigers and led an impressive assault that placed six runners in the top 20.

Belleville West, trying life without last year's top runner, Jon Burnett, placed a surprising fourth with 145 points. West was led by Jeff Sigma, who was 21st.

Massachusetts' Rob Maue, the senior, who could give Blisbury a run as Burnett's successor, was third in 15:39. He held off a fierce battle for that spot when Shy tried to take him in the last 100 yards.

"I heard him coming," Maue said, "and it scared me because he's a good middle distance runner. I know he's got the speed."

"But I really didn't think he had enough left. So I just sprinted in, which was very hard to do at that point."

O'Fallon was 13th, which was fine for head coach Bob Nesbit since the Panthers were without No. 2 runner Pat Broyles and slowed by injury.

He did have a top 20 finish in junior Doug Webster, who placed 14th in 16:18.

'Respectable' Warriors can draw on Friday's experience

Leftovers from the Warriors football battle with Belleville West. The final score did not tell the whole story. Sure, Granite City gave up 24 points to the Maroons last Friday at Memorial Stadium. But only one of the scores was earned the hard way.

Before the game, the Warrior coaching staff kept talking about the big play. And, it was the big play that jumped up and snapped the Warriors.

One was an 80-yard run by Rick Rujawitz. The other a long pass from quarterback Brian Skis to Rob Sport.

Both plays caught the Warriors napping. Take away those defensive lapses and Granite City could quite possibly have beaten the Maroons.

"The final score was very misleading," said Granite City coach Ron Yates. "Both our games were closer than two touchdowns."

However, Granite City has an 8-2 record to show for its efforts.

Sports
Comment

Gregg Ochoa

On a positive note Yates saw some bright spots. "I thought we improved," the coach said, comparing the West game with the one against Danville.

"We had ball control on offense. When we had the ball we consumed a lot of time."

Junior Quarterback Tim Hogan also showed some maturity. On several occasions, Hogan chose to eat the ball rather than risk a possible turnover. That was a bright spot.

The 5-foot, 10-inch signal caller also showed he is sturdier than his stature may indicate. In the third quarter, Hogan took a couple of solid

hits by the Belleville West defense only to bounce back into action.

Another bright spot was the pass catching of Jamie Hogan, Tim's twin brother. The combination is fast becoming a formidable scoring threat.

So far this season, Hogan-to-Hogan has hooked up for three touchdowns.

Jamie Hogan, who after two games is already one of the area's leading receivers — 11 receptions for 243 yards.

Hogan has hands that coaches dream about. Throw the ball in his direction and Hogan generally will get a hand on it. Against West, he made two eye-popping grabs.

"He has hands of glue," Yates said. "It seems like he catches anything thrown around him."

J. Hogan broke free for the Warriors' only touchdown Friday and caught a sideline pass for a good gain. Had he been able to break away from two West defenders, Hogan who has added another score.

Granite City, however, has another weapon in its arsenal, one that most high schools team don't.

Placekicker Ryan Weeks, a senior, twice kept Warrior scoring drives from going for naught with his right foot.

"His range is about 40 yards," Yates said. "Ryan works hard on increasing his leg strength."

Weeks was perfect on the night with two field goals and an extra point in three kicks.

Following the game, a disappointed Yates sat on the bottom

bleacher in the Warrior gymnasium and talked to reporters.

After answering the usual questions, Yates echoed the same thoughts he told his team moments before in a post-game talk.

The main theme was respect.

"I heard in the Belleville papers that they (Maroons) were kind of taking us lightly," Yates said. "I think we gained some respectability."

Even Bruce Arnold, the longtime Belleville West coach, breathed a little sigh of relief after the game.

"Not until our last drive did I think we had taken control of the game," Arnold said. "Like I told you before, I knew (Granite City) was going to be tough."

The last drive Arnold was referring to was a 75-yard march that was capped by Rujawitz's one yard run.

The 11-play possession ate up most of the fourth quarter and ultimately spoiled the Warriors first home game of 1986.

Looking back, the Warriors must draw on the experience. With continued hard work and the belief in themselves, Granite City might turn those close defeats into victories.

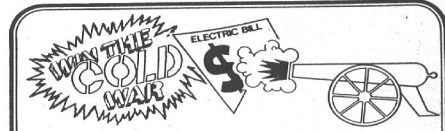

Even if they didn't get the win Friday night, Granite City can take some pride that they played tough.

More importantly, they played respectable.

Belleville West is a well-schooled football team and the Warriors were beaten then. That alone is a good sign. It was a hard-fought football game, and maybe one that Granite City can use as a positive measuring stick for the future.

Tourney to benefit area skaters

The Granite City Amateur Hockey Association is sponsoring a softball tournament. It will be at the Madison diamonds Sept. 13, 14, 15, prize money will be awarded, and entry fee is \$75 per team. Anyone interested, or for more information, call 931-2052 or 877-2892.

In the battle between propane and electricity, propane gas puts holes in electricity's efficiency. Clean-burning propane can't light your home or run your small appliances. But, depending on your local rates, propane can save 50% or more of what the same amount of electric energy would cost you to cook, heat your home and water and even power your vehicles.

Shooting Stars win two

Hampden by a scoring drought that affected the latter part of last season, the Granite City Center soccer team bunted out with a fury.

The Stars scored 13 goals in their first two games of the season, winning handily each time.

"This is going to help us a lot," said Stars Coach Larry Petri. "It will be a good confidence builder, especially for our games against Flo Valley and Meramec."

Last Friday the Stars blanked Sauk Valley 3-0, getting goals from Dave Laughter, John Flannan and Tim Clucas. Jeff Lantz got the shutout against the Redmen.

"Sauk Valley is traditionally strong," Petri said. "I was pleased with our effort. We were able to dominate the game."

Against Waukonsee, the Stars outclassed their opponents, winning 10-1. "There program is up and down and we were able to get them when they weren't at their best," Petri said.

Tony Valente scored four goals and Chris Schenk added two more to pace the Stars.

Granite City Center was to play Meramec Tuesday and always tough Florissant Valley. The game against the Norsemen is 3 p.m. Friday, Sept. 13 at Flo Valley.

Netters destroy Eagles, 8-0

By GARY KING
Staff writer

GRANITE CITY — As the Granite City Girls' Tennis team prepared for action against the Civic Memorial Eagles of Bethalto, coach Dick Harmon viewed the match as one "the girls" should be able to win.

The Warriors not only defeated the girls from Bethalto, but they did so in impressive form. The lady netters blanked Bethalto 8-0. It was, by far, Granite City's biggest win of the season.

Entering Monday's matchup, the local squad had compiled a record of 1-1. However, on Monday they looked much better than their .500 record would indicate. They not only beat Bethalto, they trounced them.

Granite City did not lose a set — or even a game — while outscoring the Bethalto girls by a total score of 96-18. It was a match that Harmon was pleased with.

"I thought that all the girls played very well today, of course that's easy to say after you win like we did today," said Harmon.

Picking up singles wins for the lady netters were Marcia Williams, Linda Briner, Andrea Suarez, and Sandy Taylor.

Doubles victories were captured

by the duos of Dawn Bowers and Jema Gonzales in first doubles, Julie Gabriel and Jaymie Siebert in second doubles, Megan Lombardi and Janis Hagner in third doubles, and Becky Trittschuh and Kris Williams in the fourth doubles.

Although Harmon was happy with the win, he was quick to speak of the tough schedule his girls would be facing the remainder of the week.

"We still have three tough matches remaining this week against Belleville West, Collinsville, and McCluer North so we can't get too confident just yet," said Harmon.

Although Harmon remains cautiously optimistic, his players

have gained confidence through their success thus far.

"I think that we have a good team, and if we play up to our potential we should be able to win a lot of our matches," said senior Jema Gonzales.

The Granite City tennis team is in what is being viewed by Harmon as a "rebuilding year." Traditionally, rebuilding years consist of disappointing losses and players who will get better with time.

However, if the Warrior team continues at their present rate tradition could be broken.

Granite City will face Belleville West at Belleville at 4 p.m. Tuesday.

Fall leagues in Madison

A fall softball league is currently being organized in Madison according to Jim Broadway the Madison Recreation director.

"I've had several managers from all over ask me about starting a fall league. Due to the interest in softball and the excellent diamond we have in Madison, I thought I'd ask for teams interested to sign up," Broadway said.

The league would be on Tuesday and Thursday evenings and the entry fee would be \$150 according to Broadway.

Anyone interested should call Broadway at 451-1440.
